Subject: DEFEA – Defence Exhibition Athens, 9-11 May 2023

Athens, June 14, 2022

Dear Mr. Mark van Venrooij,

It is with great pleasure to inform you about the second edition of DEFEA – Defence Exhibition Athens, the international defence and security exhibition that will take place 9-11 May 2023, in Metropolitan Expo in Athens, Greece.

DEFEA is organized under the auspices and active collaboration of the Hellenic Ministry of National Defence – General Directorate for Defence Investments and Armaments (GDDIA) by the Hellenic Manufacturers of Defence Material Association (SEKPY) and ROTA Exhibitions Greece.

Through its 1st edition in July 2021, DEFEA met an enormous success. It established itself as a major international defence exhibition presenting 315 leading exhibiting defence corporations from 22 countries and welcomed a global audience of 45 official national delegations, represented at the highest political and military level, from 54 countries.

DEFEA already became a point of reference for the broader region of SE Europe and the Eastern Mediterranean, offering significant business opportunities.

A series of business events are also taking place during DEFEA like the Ministerial Round Table, Workshops, B2B sessions, the DEFEA Academy, the Reception Gala, that maximize the networking opportunities as well.

In that context we are pleased to invite the defence and security members of your country to participate in DEFEA 2023, a significant defence and security exhibition at the heart of the Mediterranean basin and explore the opportunities it offers.

You can find more information for participation at www.defea.gr.

I remain at your disposal.

Yours Sincerely,

Anastasios Rozolis
President
